1984 ARTICLE INDEX

A subject listing of articles published in MODERN MACHINE SHOP during the past year.

ALLOYS
The Versatile 416 Stainless Steels....Feb. 70
Domestic Type 416 Stainless Boosts Production....Feb. 108
Boron Steels: Higher Through-Hardness....May 62

BORING
Universal Houdaille Expands Tooling Line....Feb. 92
Job Shop Discovers Quick Payback....Mar. 100
An Intermediate CNC Boring/Milling Machine....Nov. 134

BROACHING
Pot Broaching Produces Single-Piece Flywheels With Improved Accuracy....Oct. 136

CAD/CAM
My CAD Talks To Your CAM....Sept. 62
Factoryvision Brings CAD/CAM Data To Shop Floor....Sept. 126
Molding The Future With CAD/CAM....Oct. 74
Let's Discuss CAD/CAM Integration—Pt. 1 of a 6-Pt. Series....Oct. 88
Let's Discuss CAD/CAM Integration—Pt. 2 of a 6-Pt. Series....Nov. 80
Let's Discuss CAD/CAM Integration—Pt. 3 of a 6-Pt. Series....Dec. 86
Three Levels Of DNC And CAM....Dec. 128

CARBIDE TOOLING
Manually Operated Block Tooling....May 106
Small Indexable End Mills....Oct. 56

CERAMIC TOOLING
CBN Inserts Permit Turning Instead Of Grinding....Feb. 110
Trends In Cutting Tool Materials....Sept. 130

CLAMPING & HOLDING
Hydraulic Clamping Is The Answer....Oct. 116
Pull-Type Design Vise Reduces Deflection....Oct. 132

CUTTING FLUIDS
Coolant-Fed Tooling Spurts Ahead....Feb. 62
How To Select Coolant Filtration Systems....Mar. 91
No Sumps Dumped In Over Two Years....Oct. 124

DRAWING & FORMING
To Make A Better Steel....Sept. 90

DRILLING
Univeral Houdaille Expands Tooling Line....Feb. 92
Multiple-Spindle Hole Making....June 68
Longer Life From Multispindle Drill Heads....June 76
Straight Deep Holes Without Gundrilling....June 90
High-Speed Drills Lower Holemaking Costs....June 96
Superior Shallow And Deep Holes With Gundrilling....June 120
Accurate, Close-Tolerance Holes With Pilot Drills....June 134
Robinson On Cutting....Sept. 106
Robinson On Cutting....Oct. 104
Robinson On Cutting....Nov. 110
Automatic Drill Units Speed Multiple Hole Pecking....Nov. 126
Robinson On Cutting....Dec. 104

DUST, MIST & NOISE CONTROL
Electrostatic Precipitators Solve Smokey Problems....Dec. 106

ELECTRICAL DISCHARGE MACHINING
Carbide Cracking Conquered....May 52
This TW/EDM Minimizes Recast Layer....May 114
Wire EDM Systems With CNC Features Simplify Programming....Nov. 122

EQUIPMENT DESIGN
Monostructure Composite Column Has 63 Percent Greater Rigidity....Feb. 96
PC's Bring Low-Cost Flexibility To Special Machines....May 94
60-Ton Granite Machine Base With Air Support System....Oct. 138
Correct Machine Mounting....Nov. 136

EQUIPMENT MAINTENANCE
On-Location Milling Saves Time And Dollars....Mar. 104
Machine Tool Restoration: Some Facts And Figures....Apr. 78
Longer Life From Multispindle Drill Heads....June 76
Worn Tool Detector Reduces Drill Breakage....June 126
Correct Machine Mounting....Nov. 136

FLEXIBLE MANUFACTURING
Fixturing Keeps FMS On Track....Mar. 50
Building From The Cell....Mar. 62
Specials And NC Combine For FMS Productivity....Mar. 108
Renault Goes Full FMS....Apr. 64
Milacron Gets FMS Order From FMC....Apr. 112
Using FMS In Sheet-Metal Work....May 68
FMS--Clear Targets Needed....Sept. 50

GAGING
Worn Tool Detector Reduces Drill Breakage....June 126

GRINDING, HONING, LAPPING

Off-Hand Grinding Ensures High Quality....Apr. 90
Centerless Grinding System For Stainless Steel Tubing....June 98
Diamond Wheels Dissipate Heat—Improve Life....June 124
High RPM Electric Spindle On Grinder Replaces Jig Grinding....July 100
Select The Right Grinding Wheel With Briefcase Computer....July 108
Constant Geometry Abrasive Corrects Parts Geometry While Microfinishing....July 110
A Productive Duo: Creep-Feed Grinding With CBN....Dec. 50
Taking The Plunge With Full-Depth Form Grinding....Dec. 60
Flat Honing's New Look....Dec. 70
Hydrostatic Headstocks For Close-Tolerance Electronic Component Grinding....Dec. 112
Cylindrical Grinder Produces Parts To Tolerances In Millionths....Dec. 118

HEAT TREATING & CHILLING

To Make A Better Steel....Sept. 90

INSPECTION & QUALITY CONTROL

Non-Contact Laser Probes For Coordinate Measuring Machines....Jan. 99
Automated Vision Inspection System....Mar. 112
Open Software In New CNC Inspection Centers....Mar. 114
A Computerized Gage Block Selection System....Apr. 104
Inspection With Dividing Heads....May 76
Lasers, Computers Combine For Better Defect Detection....May 110
Inspection By Machine Vision....July 70
Measurement Productivity Propels CMM Developments....July 116
Probing The Probe's Uses....Sept. 72
Hoffman On Tooling--Manufacturing Tolerances....Sept. 104
Hoffman On Tooling--Coordinate And Geometric Tolerances....Oct. 108
Hoffman On Tooling--Hole Tolerances....Nov. 106
Hoffman On Tooling--Tooling Tolerances....Dec. 102

INVENTORY CONTROL

"Electronic Mailbox" Simplifies Purchasing, Reduces Inventory Costs....Sept. 110

JIGS & FIXTURES

Fixturing Keeps FMS On Track....Mar. 50

LASERS

Cutting Stamping Dies With A Laser....Jan. 50
Robot And Laser Become Team....Nov. 118
Laser Cuts Tough Machining Problems....Dec. 78

MATERIALS

The Versatile 416 Stainless Steels....Feb. 70
Domestic Type 416 Stainless Boosts Production....Feb. 108
Boron Steels: Higher Through-Hardness....May 62
To Make A Better Steel....Sept. 90

METALLURGY

To Make A Better Steel....Sept. 90

MILLING

Universal Houdaille Expands Tooling Line....Feb. 92
Edge-Type Inserts Increase Output....Feb. 102
Cost Savings Realized With Thread Milling Cutters....Feb. 106
On-Location Milling Saves Time And Dollars....Mar. 104
Right Equipment Key For Aircraft Hinge Manufacturer....May 90
Complex Milling On A Chucker....Oct. 50
Small Indexable End Mills....Oct. 56
Two-Step Milling Chips Problems Away....Oct. 66
Hydrostatic Ways On Machine Tool Make Tidal Project Possible....Oct. 110
Lead Time Cut With CNC Milling Machine....Oct. 122
An Intermediate CNC Boring/Milling Machine....Nov. 134
VTL That Mills, Machining Center That Turns....Dec. 132

NC MACHINES & CONTROLS

Conversational Programming Speeds CNC Acceptance....Jan. 110
Operator Friendly CNC Lathes....Feb. 100
Smooth NC In The Contract Shop....Mar. 84
Machining Tolerances Critical For Microwave Parts....Mar. 96
CNC Control Features Nine 16-Bit Microprocessors....Apr. 292
A-B CNC Control Series With Many Capabilities....June 128
What's Coming In The New CNCs?....July 50

NONCONVENTIONAL MACHINING

All-Pneumatic Abrasive Jet Machining....Apr. 108
Abrasive Jet Machining Removes Flash--In A Flash....Dec. 120

PLANT MANAGEMENT

What's The Business Worth?....Jan. 85
Seven Ways To Motivate Employees....Feb. 84
Contract Shop Doubles On-Time Delivery Record....Mar. 72
More Effective Turning With Readouts....Apr. 58
Machine Tool Restoration: Some Facts And Figures....Apr. 78
How A Good Distributor Helps Justification....Apr. 86
Winning The Shop Floor Control Battle....May 82
Just-In-Time: Join Or Fight?....July 78
Building Future Successful Labor/Management Cooperation....July 84
Contract Shop Ideas--New Technology Changes....Sept. 100
Contract Shop Ideas--Sell Your Employees On New Innovation....Oct. 98
The Value Of Better Lighting....Nov. 92
True Estimation, Not Guesstimation....Nov. 128

PRESSWORKING

Cutting Stamping Dies With A Laser....Jan. 50
How To Calculate An Optimum Stamping Run....Jan. 62
Working With Expanded Metal....Jan. 68
Custom-Designed 100-Ton Press Brakes....Sept. 118
Knuckle-Joint Press Economically Produces Shaped Parts....Sept. 122
Robots Slow Line Speed, But Increase Output....Nov. 114

RESEARCH

Monostructure Composite Column Has 63 Percent Greater Rigidity.....Feb. 96

ROBOTICS

Robotic Systems Review.....Feb. 118
Robotic Systems Review.....Apr. 118
Robotic Systems Review.....June 136
Robotic Systems Review.....Sept. 148
What Robot Vision Can Do.....Nov. 52
Positioning For Robot Welding.....Nov. 66
Robots--Doom Or Boom?.....Nov. 74
Robots Slow Line Speed, But Increase Output.....Nov. 114
Robot And Laser Become Team.....Nov. 118
Robotic Systems Review.....Nov. 146

SCREW & AUTOMATIC MACHINING

Savings Realized With Carbide And High-Speed Cutting Tools.....June 104
CNC Screw Machine Improves Productivity.....July 94

STAMPING, BLANKING & BENDING

Cutting Stamping Dies With A Laser.....Jan. 50
How To Calculate An Optimum Stamping Run.....Jan. 62
Switch To Stamping Boosts Contact Life.....Apr. 100
Using FMS In Sheet-Metal Work.....May 68
Time Saved With Use Of Hydraulics.....June 108

SYSTEMS & SOFTWARE

The Automated NC Processor Is On The Way.....Jan. 75
Cincom's ULTRA Provides DEC-IBM Connection.....Jan. 102
$5 Million Savings In Drafting Costs Expected With CAD.....Jan. 107
Systems & Software.....Jan. 114
Computerized Control Systems For The Tool Crib.....Feb. 50
Contract Shop Doubles On-Time Delivery Record.....Mar. 72
Systems & Software.....Mar. 118
Systems & Software.....May 118
Buying The Future.....June 82
G-Posting To NC Flexibility.....July 58
Multi-Display Programming Speeds Fabricator's Work.....July 90
Minicomputer With 48 Megabyte Memory Increases Output.....July 96
Systems & Software.....July 126
Systems & Software.....Oct. 140
Systems & Software.....Dec. 136

TAPPING & THREADING

Multiple Threads Rolled In One Pass.....Jan. 104
Cost Savings Realized With Thread Milling Cutters.....Feb. 106
10,000 Holes Per Tap.....June 50
Chipless Tapping Comes Of Age.....June 58
A-B CNC Control Series With Many Capabilities.....June 128
Extend Cutting Tool Life 2 To 10 Times.....Sept. 116

TOOL & DIE DESIGN
Cutting Stamping Dies With A Laser.....Jan. 50

TRACING
New Developments In Electronic Tracing.....Feb. 78

TRAINING
Contract Shop Ideas—Training For New Realities.....Nov. 102
Contract Shop Ideas—Training And Education—A Continuing Process.....Dec. 98

TURNING
Chuckers Machine Both Ends Of Workpiece.....Jan. 94
Tool Life Doubles With Cermet Inserts.....Jan. 112
Operator Friendly CNC Lathes.....Feb. 100
CBN Inserts Permit Turning Instead Of Grinding.....Feb. 110
Sub Sub-Micron Turning.....Apr. 50
More Effective Turning With Readouts.....Apr. 58
CNC Capabilities Win Contracts For Job Shop.....Apr. 94
Complete CNC Line For Small-Part Turning—Primary And Secondary Operations...July 104
Cell And Systems Compatible Vertical Lathes.....July 122
CNC Lathe Cuts Costs And Scrap.....Oct. 118
Vertical Turning Machines—From Single Units To Flexible Cells.....Nov. 132
Tracer Controls Cut Contouring Costs.....Dec. 114
VTL That Mills, Machining Center That Turns.....Dec. 132

WELDING
Weld-Fabricated Drop Spindle Reduces Weight, Cuts Manufacturing Costs.....May 100
Robotic Welding System Aimed At Job Shops.....Sept. 138
Positioning For Robot Welding.....Nov. 66
